

Statement of Purpose

I, Parth Pathak of 5BCA B, believe in helping others and bringing in opportunities for everyone. Considering my belief, I think the Student Council will be a great place for me and other like-minded people to come together to achieve it. There's a lot of pressure and confusion in a student's life and I know that Student Council works to relieve that. Bringing change and opportunities is difficult for anyone but Student Council will give me the extra hand to overcome that, i.e., it is the right platform for me and others to bring forth new ideas and opportunities. I think I don't have to talk about the endless paths we can create for students via the authority given to as a Member of the Student Council. So, I hope you will consider my application for the Student Council and do the needful.
